## LEX 10N0016/17/26/27 Circuitry tester

- Insert cartridge with 30 degree (be careful, not to damage pogo-pins). It can detect electrical function..
- Insert cartridge in the slot tightly (as shown in the picture)
- Push the testing button
- Wait for 2 seconds

- For cartridges, LED number should be 208. or 192. LED number shown none or less means electrical short or broken.
- Test one cartridge at a time
- Available in 110/220 V

- Patent pending technology
- 6 months warranty
